This Response to Office Action is filed in response to the Office Action mailed September 23, 2004, rejecting claims 27-42 and 44 of the above-referenced patent application. The cited references are Wheatley, 603 J. Chromatogr. 273 (1992) and U.S. Patent No. 5,372,783. The undersigned would like to thank Examiners Venci and Le for the telephonic interview held on Jan. 26, 2005, and for their helpful suggestions during the interview, which have been incorporated in the present response.

The following amendments and remarks remove all grounds for rejection of the application, thereby placing it in condition for allowance.
